HOW I MADE MY HAIR GROW

Woman With Murvelously Beautiful Hair Gives Simple Home Prescrip-tion Which She Used With Most Remarkshie Results.

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally falled; many of them made my hair gressy so ft was impossible to combit or do it up properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against usion preparations conlively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other polsonous substances. I believe they injure the roots of the hair. After my long list of fallures, I finally found a simple prescription which I can unhesitatingly stata is heyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dumbruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but it practically restored all of his hair to its natural color.
